**LIQ. CHLORINE
12% SAN**

This product is an effective sanitizer for food contact surfaces. It also provides an easy and economical way of cleaning and removing stains from other surfaces without scratching porcelain finishes.

DIRECTIONS: When used as a sanitizer on food contact surfaces, 200 ppm is required. For use as a bleaching compound on other surfaces, use at 1000 ppm. When used in low temperature dishwashing machines, limit available chlorine to 50-100 ppm.

Available Chlorine:

50 ppm
100 ppm
200 ppm
1000 ppm

Use dilution:

5 ml/10 L of water
10 ml/10 L of water
20 ml/10 L of water
100 ml/10 L of water

CAUTION: Do not mix with acids (toilet bowl cleaners, vinegar, etc.) or ammonia.
