P-5 TEAT DIP

P-5 is a hydrogen peroxide and lactic acid based teat dip solution containing glycerine.

DIRECTIONS: Immediately prior to milking, dip the teats in undiluted product. The teat dip solution in the dip cup should be changed if it becomes visibly dirty, if sediment is introduced, or if green colour fades noticeably.

NOTE: Do not use for cleaning and/or sanitizing milking equipment. Do not dilute. Use just as it comes in container.

ACTIVE INGREDIENTS:

Hydrogen peroxide: 0.5%

Lactic acid: 1.7%
