LEMON TREE
LIQUID**CLEANER-DISINFECTANT-VIRUCIDE-BACTERICIDE-
FUNGICIDE-DEODORIZER****GUARANTEE: didecyl dimethyl ammonium chloride – 4.5% w/w****DIN 00628891**

Lemon Tree is a cleaner, virucide, disinfectant and sanitizer designed for institutional use such as Hospitals, Nursing Homes and Institutions where housekeeping will be of prime importance in controlling the hazard of cross infection.

Lemon Tree is very effective for controlling odours caused by the growth of bacteria, mold, mildew and fungi. It is recommended for use on hard non-porous surfaces, such as floors, walls, sink tops, garbage pails, telephones, rest rooms, bed pans and operating rooms. Pre-clean heavily soiled areas.

DISINFECTION AGAINST BACTERIA AND VIRUSES: Use 1 part per 46 parts water (957 ppm active). Apply with a cloth or mop. Allow surface to remain wet for 10 minutes, then remove excess liquid. Prepare a fresh solution for each use. Rinse and allow to dry.

At this dilution, Lemon Tree is effective against pseudomonas aeruginosa (ATCC 15442) and staphylococcus aureus (ATCC 6538). It is also effective against human coronavirus and likely to kill the SARS-CoV-2 (the virus that causes COVID-19).

SANITATION: If used for sanitation of food equipment or food contact items, limit the level of active sanitizer to 200 ppm (1 part per 220 parts water). Completely drain the product from all food contact surfaces and rinse with potable water prior to use.
