## NANO SHIELD FLOOR FINISH

NANO SHIELD is a revolutionary floor finish that combines deep gloss, high durability and ease-of-use into one product. High molecular weight acrylic polymers and nano-zinc cross-linking produce a beautiful, long-lasting shine that resists black marking, scuffing and soil penetration. It is ideal for limited maintenance settings such as classrooms, patient rooms and offices. It also responds to occasional burnishing, making it suitable for retail establishments, hallways and other frequently maintained areas.

Total Activity: 24%  
Floor Solids: 20%  
Specific Gravity: 1.024

### APPLICATION:

Strip floors to remove old waxes, sealers and finishes. Rinse thoroughly and let dry. With clean equipment, apply thin even coats of finish. Under normal conditions, allow to dry for 10-15 minutes. For best results, apply a maximum of 4 coats within 24 hours.

### MAINTENANCE:

Daily: Sweep or dust mop as necessary to remove gritty soil.

Dirty Floors: Clean with neutral floor cleaner.

High Traffic Areas: Clean with floor cleaner. Rinse and let dry. Apply additional thin coats of floor finish to areas as needed.

Buffing: Periodic burnishing with blended hair pads will enhance appearance.

Stripping: When required, use stripper following label directions for best results.
