TECHNICAL DATA SHEET

SANITIZING FOAM HAND SOAP

This sanitizing, foaming hand soap is ideal for use in hospitals, institutions and public buildings, where employees wash their hands several times per day. It is formulated with cosmetic grade detergents, emollients and Aloe Vera extract to be gentle on hands, while effectively removing organic soil with 1000ppm active quaternary sanitizer. This soap is dye, fragrance and preservative free.

It produces dense luxurious foam when used in a foam-generating dispenser.

DIRECTIONS: Moisten skin with water. Dispense soap into palm and rub hands together vigorously. Rinse off completely with water. Repeat if necessary.
