

J776

TECHNICAL DATA SHEET**WINDOW
CLEANER CONCENTRATE**
(1:10)

This product is a high quality window cleaner concentrate containing surfactants that provide wetting and penetrating properties to reduce the surface tension of hard and soft water, ensuring streak free windows. It is blue in color, and contains ammonia, methanol and cleaners to reduce film and streaking.

DIRECTIONS: Dilute product with 10 to 30 parts of water and apply with a spray bottle, sponge or cloth. Wipe dry using squeegee or clean cloth. For cold weather use: dilute concentrate 1:1 with water. This will make an all weather product.
