

J846

RELEASE

This product is a highly concentrated, commercial grade carpet shampoo that not only cleans carpets, but prevents soiling after cleaning. Biodegradable surfactants, organic softeners and anti-redeposition polymer technology work synergistically to loosen soil from carpet fibers and suspend it for easy removal.

Residual detergent crystals capture future soil for removal with routine vacuuming. This detergent easily removes ice melt salts and works equally as well with hard or soft water. Optical brighteners and essential oils finish carpets with vibrant colours and a gentle, fresh scent.

DIRECTIONS:

SHAKE WELL BEFORE USE

Dilute product 4oz/Gal (30mL/L) with hot water for routine cleaning.

Dilute product 6oz/Gal (45mL/L) with hot water for prespotting and heavy duty cleaning applications.

Apply with a carpet scrubbing machine with vacuum recovery.
