

L513

TECHNICAL DATA SHEET

OXYGEN BLEACH

This product contains no chlorine and is safe to use on all washable fabrics and colours. It is an excellent alternative for bleaching operations when the use of chlorine bleach is undesirable.

DIRECTIONS:

This product is recommended to be used at 5 oz. per 100 lbs. of dry fabric. More or less may be required depending on soil and stain.

SOAKING:

For soaking laundry exposed to heavy or set stains, dissolve 2 tbsp. for each gallon (4L) of warm water in the sink or pail, add laundry and let soak for 1/2 to 2 hours, then wash normally. When washing coloured fabrics make sure to test dye for colour fastness.
