

L524

LIQUID LAUNDRY DETERGENT

This is a quality non-phosphate product specially formulated to provide effective cleaning of all synthetics and natural fibres such as cotton, wool and silk. The product is ideally suited for use in food plants and other industrial and institutional laundry applications.

DIRECTIONS: This product should be used with an alkali when processing heavily soiled loads in high temperatures. When washing wool, silk or delicate synthetics, use alone at low temperatures (40°C). When used in commercial washing equipment with an alkali additive, use 2 - 4 oz per 50 lbs of laundry. For top loading domestic washers, use 1/2 - 3/4 cup. It is also ideally suited for use in high efficiency domestic machines using 2 - 4 oz per load.
