## PG-1 H.D. PRESSURE WASH

This product is a quality green-coloured granular compound that dissolves easily in hard or soft water. It is an alkaline biodegradable product for washing and degreasing industrial equipment, engines and trucks. It is intended for use with pressure washing equipment for effective removal of dirt, oil and stubborn road film.

**DIRECTIONS:** For cleaning and light degreasing of vehicle surfaces with pressure wash equipment, use 2-3 grams per litre of water (1/3 – 1/2 oz/gallon). Best results are obtained by using hot water. Wet the entire surface to be cleaned with wash solution. Clean each section thoroughly. Rinse with cold water and allow to drain dry.
